- EMS Documentation

### Who Should Attend

Appointed staff who are involved in document control, system implementation of organisation's Environmental Management System and would like to gain knowledge on the changes in the ISO 14001 standard requirements.

### Method of Study

Our participants benefit from a learner-centred approach based on active-learning and problem-centric principles.

This is conducted through active participation methods such as role-playing, group discussion, quiz, and feedback. Problem-based learning enables participants to find solutions to issues through case studies, classroom discussion, and sample templates.

### Assessment & Certification

Participant to attend to MCQ Assessment upon course completion.

Certification will be issued to participant who attend the course and successfully complete the assessments.
