ISO 55001:2014

Asset Management System Awareness

Course Content

The syllabus focuses on:

- About ISO 5501 Asset Management System
- What are Assets?
- Roles & Responsibilities in AMD
- Strategic Asset Management Plan (SAMP)
- How Asset Level Activities Support SAMP
- Risk Based Management on Assets
- Systematic Approach to Asset Information
- Management of Change
- Management of Outsourced Activities
- Evaluation of Asset Performance
- Nonconformity & Corrective Actions
- Continual Improvement

Who Should Attend

Appointed staff who require general knowledge on ISO 55001:2014.

Method of Study

Our participants benefit from a learner-centred approach based on active-learning and problem-centric principles.

This is conducted through active participation methods such as role-playing, group discussion, quiz, and feedback. Problem-based learning enables participants to find solutions to issues through case studies, classroom discussion, and sample templates.

Assessment & Certification

Participant to attend to MCQ Assessment upon course completion.

Certification will be issued to participant who attend the course and successfully complete the assessments.
