ISO 9001:2026 Quality Management System Awareness Course

Course Content

The syllabus focuses on:

- **ISO9001 updated requirements**
  - **Understanding the revised structure and terminology**
  - **Climate change considerations within the organization's context**
  - **Leadership responsibility, quality culture and ethical behaviour**
  - **Risks and opportunities in quality management**
  - **Organizational changes and maintaining QMS results**
  - **Quality objectives, process performance, customer requirements and continual improvement**

Who Should Attend

Anyone involved in the planning, implementation, or supervision of ISO 9001:2026 standard.

Method of Study

Our participants benefit from a learner-centered approach based on active learning and problem-centric principles.

This is conducted through active participation methods such as role-playing, group discussion, quiz, and feedback. Problem-based learning enables participants to find solutions to issues through case studies, classroom discussion, and sample templates.

Assessment & Certification

Participants will receive a certificate of completion upon successfully meeting the grading for the final assessments.
